ABOUT ME

I am a self taught front-end developer, this depicts my resilience and tenacity in life, having come from a finance background.

I take pride in crafting clean and user-friendly web experiences.

I have a keen eye for great design and am emphatic to the needs of the end user. I am team player and i collaborate with ease as am always happy to pitch in and help the team by either reviewing code, pairing on a tricky problem or thinking on ways to solve the problem.

PROJECTS

REACT/REDUX CART

E-commerce Web app built with react and redux

<https://rreduxcart.netlify.app>

WORK EXPERIENCE

Budget Officer @Independent Electoral and Boundaries Commission-IEBC

Achievements

Implementation of fully functional Budget Information System.

Together with the team in the budget department we were tasked to design and implement a Budget information System.

The system was to enforce accountability in the utilization of resources for both Recurrent and development resources.

The team successfully delivered.
